PINAMP Optical Receiver Modules

**52 Mb/s, 155 Mb/s, 622 Mb/s
and 1 Gb/s Data Rates**

**High Responsivity and Low Dark
Current InGaAs Pin Detector**

High Sensitivity

Wide Dynamic Range

Single Supply Operation

Hermetic Package

Single Ended or Differential Output

Applications:

- Long haul transmission networks
- Short haul transmission networks
- DWDM transponders
- SDH/SONET single mode applications
- Instrumentation & testing
- Data communications
- Gigabit Ethernet

Laser Diode's PINAMP Product line provides a low cost, high performance miniature optical receiver module integrating our high responsivity, low leakage current and high speed InGaAs photodiode with a GaAs transimpedance amplifier. The transimpedance amplifier incorporates automatic gain control which provides high optical overload performance. The receiver package offers high reliability capable of satisfying Bellcore TA-NWT-00983 specifications.

The pigtailed receivers are available with industry standard FC, SC and ST connectors. Custom connectors are also available.

The Laser Diode Inc. range of PINAMP receivers has been designed to meet the requirements of synchronous SONET, SDH and Gbit Ethernet systems operating up to 1.0 Gbit/sec.

These cost effective solutions are available in a wide range of coaxial, receptacle and mini DIL packages – one sure to provide the ideal solution for your receiver design.

Maximum Ratings:

	Min	Typ	Max	Units
Forward Voltage			0.5	V
Reverse Voltage			20	V
Reverse Current			10	mA
Forward Current			10	mA
Supply Voltage	-4.5		+5.5	V

Handling precautions

Handle optical fiber with normal care, avoiding stretch, tension, twist, kink, or bend abuse. Products are subject to the risks normally associated with sensitive electronic devices including static discharge, transients, and overload.

Special orders

Some products can be supplied with performance characteristics that will meet special customer requirements and that are different from those indicated herein. Contact the Laser Diode Sales Department or your local Laser Diode distributor to discuss your requirements.

Ordering

Products can be ordered directly from Laser Diode, Inc. or from its distributors. Refer to the following ordering information.

Ordering Information

Mini-DIL PINAMPs

LPAD XXXX - XX

Package Type Data Rate Connector Type

Coaxial Pigtailed PINAMPs

LPA XXXXPT X - XX

Package Type Data Rate Pin Out Connector Type

LDFC XXXX X

Receptacle PINAMPs

Package Type Data Rate Pin Out

LDST XXXX X

Package Type Data Rate Pin Out

EXAMPLE: **LPAD 0622-FC**

Mini-DIL PINAMP at 622 Mb/sec with FC connector

Pigtail connector termination designations:

- Use **00** to indicate no connector.
- Use **FC** to indicate an FC/PC type connector.
- Use **SC** to indicate an SC/PC type connector.
- Use **ST** to indicate an ST® type connector.

ST is a trademark of AT&T
