

Features

- One piece slim-line housing saves space and provides six- or eight-wire modular access to RS232 input/output connector
- Consists of corrosion resistant, 25- or 15-contact, D-Subminiature plugs or sockets in unassembled kits or pre-wired to a non-keyed, six- or eight-wire modular jack
- Available with or without spring latches
- Pre-wired versions 100% inspected and tested
- Kits provide flexibility for "on-the-spot" wiring
- Hand termination tool available for reliable kit assembly
- UL Recognized file no. E19071
- CSA Approved file no. LR-31996-3

Performance Data

Materials

Insulation Material:

Modular Jack: UL 94V-0 rated thermoplastic, gray
D-Subminiature: UL 94V-0 rated glass-filled nylon, black

Contact Material:

Modular Jack: phosphor bronze
D-Subminiature: phosphor bronze

Contact Plating:

Modular Jack: 50 μinch gold over copper
D-Subminiature: gold flash over copper

Hood Material: thermoplastic, gray

Electrical Characteristics

Withstanding Voltage:

Modular Jack: Meets 1000 VAC dielectric requirement
D-Subminiature: 1000 VAC rms (@ sea level)

Current Rating:

Modular Jack: Meets Telephone USOC requirements; 1.5 Amps
D-Subminiature: 3 Amps

Contact Resistance:

Modular Jack: 6 Milliohms maximum
D-Subminiature: 5 Milliohms maximum

Insulation Resistance:

Modular Jack: 500 Megohms minimum
D-Subminiature: 5000 Megohms minimum

Environmental Characteristics

Operating Temperature: -55° C to +85° C

Dimensions

Type 1

Slim-line, one-piece hood with two, captive 4-40 mounting screws. Best for most applications.

Type 4

Used when mating to a cable or panel mounted connector that has latch blocks, this two-piece adapter hood with spring latches allows for fast, easy, secure connection/disconnection without screws.

Type 3

Used when mating to a cable connector that has a hood with spring latches, this slim-line, one-piece hood is equipped with latching blocks for fast, easy, secure connection/disconnection without screws.

Type 5

Two-piece adapter hood with filler ends and two, captive 4-40 mounting screws snaps together for convenient kit assembly.
