

Miniature control relays

■ Description

The HH52, 53 and 54 are a series of miniature general purpose relays specially designed for users demanding small size, sturdy construction and high electrical capacity. Mechanisms are furnished in polycarbonate dust-proof enclosures and are recommended for a multitude of electrical control applications for their reliability and compact size. Continuous duty coils, either AC or DC are available for voltages up to 240V AC or 120V DC. Contacts can be supplied in 2PDT, 3PDT, 4PDT arrangements. Continuous current ratings are 3, 5 and 7 Amps. Many terminal types are available for solder, plug-in or printed circuit board mounting.

■ Features

- 3, 5 and 7 Amp. contacts
- 2PDT, 3PDT and 4PDT
- Reliable operation, long service life
- High dielectric strength
- Solder, PC board, wire wrap and screw terminal socket
- AC or DC coils
- Barrired contacts for opposite polarity available
- Dust proof enclosures
- Approved by UL, CSA and TÜV
 UL recognized File No:
 E42419, E90265 (Socket)
 CSA: LR 20479
 TÜV:
 License No. R9251339 (HH52)
 R9251340 (HH53)
 R9251341 (HH54)
 T9251612 (TP58, 511, 514)
 T9251425 (RZ, FX)

■ General information

● Contacts

Miniature relays can be supplied with contacts that meet most electrical and mechanical contact requirements. The standard HH52, 53 and 54 series are of the single contact type as illustrated. The HH52W (2PDT) and HH54W (4PDT) relays are supplied with bifurcated contacts. These bifurcated contacts are with good conducting characteristics and are recommended where limited control power is available. The dielectric strength is 1000 volts rms 50/60Hz (between open contacts) which makes them more than adequate for power circuit use.

Contact arrangement are as follows:

Type	Contact arrangement	Rated thermal current
HH52U	2PDT	7 Amps
HH52, 52W	2PDT	5 Amps
HH53	3PDT	5 Amps
HH54U	4PDT	5 Amps
HH54, 54W	4PDT	3 Amps

Bifurcated contact

Single contact

● Coils

Coils are available with nominal voltages within the following ranges.

Coil voltage	Power consumption
6 to 120V DC	Approx. 0.9W
6 to 240V AC	Approx. 1.0VA
(50/60Hz)	(60Hz)

Special purpose relays can be supplied with diode for surge suppression, for operating display devices such as LED's, and magnetically held type.

● Enclosures

All miniature relays are enclosed in sturdy heat-resistant polycarbonate covers providing protection against dust and dirt.

Standard

Flange mounting

● Terminals

Plug-in type terminal

PC board type terminal

● Sockets

There is almost infinite choice of sockets. They can be adapted to all types of wiring including solder type, standard screw terminals, wire wrap and printed circuit. Sockets for rail mounting use are also available.

Industrial Control Relays

Miniature control relays

HH52, 53, 54

■ Versions

Operating status indicator

All relays can be supplied on request with a visual indicating signal—a light emitting diode (LED). LED's are fitted to relays with nominal operating voltages up to 240 volts. The LED emits highly visible red light for AC and green light for DC when power is applied to the relay coil, an extremely useful signal when trouble shooting either equipment or a system.

Surge suppression

We can also supply relays with a diode (or CR) for surge suppression. The highly efficient diode (or CR) is connected in parallel with the coil in order to suppress the surge generated within the coil. Consequently this coil can be used in electric circuits which include highly sensitive relays or transistors, etc. without interfering with their operation, so increasing the dependability of the equipment.

With operation indicator and surge suppression device

This type has a built-in operation indicator and surge suppressor.

With extra pick-up operating coil

This type is recommended for use in poor power supply environments.
 Pick-up voltage: 65% of rated voltage (at 20°C)
 Drop-out voltage: 10% of rated voltage (at 20°C)
 Mechanical durability: 10 million operations
 Other specifications are the same as those of the basic model.

High capacity type

This type is suitable for switching a load like solenoid. The current rating of the contacts is 7A for HH52PU and 5A for HH54PU. Other specifications are the same as those of the basic model.

With Au-plated Ag contact

Type HH □-J has gold-plated contacts. (Note: Models with bifurcated contacts and 4PDT high-capacity models are provided with gold-plated contacts as standard, even if their type number has no J.)

Dual coil magnetically held

One coil firmly holds the contacts in one position, the second coil releases them. This relay has a good memory stability because it will maintain the ON condition during loss of power. It operates on a momentary pulse to either coil. The relay saves space as well as power, since a single unit occupies half the space of a mechanically interlocking latching relay of the same rating. Voltages: 6V–110V AC, 6V–48V DC

Industrial Control Relays

Miniature control relays

HH52, 53, 54

■ Dimensions, mm/Sockets

Soldering

TP511

Panel cutting

Mass: Approx. 10g

TP58

TP514

Mass: Approx. 10g

Mass: Approx. 10g

P.C. board

TP58B, TP511B, TP514B

Mass: 58B Approx. 9g
511B, 514B Approx. 9.5g

PC board drilling

TP58B

TP511B

TP514B

Wire-wrap

TP58R2

TP511R2

TP514R2

Panel cutting

Mass: Approx. 10.5g

Stem dimension

Mass: Approx. 11.5g

Stem dimension

Mass: Approx. 12.5g

Mounting plates

FUJI can supply very convenient mounting plates which can accept either 1, 16, 18, 19, or 36 panel mounting miniature relays.

These mounting plates use plug-in relays with sockets, which are held in position by "snap-in" clips.

TX01

Mass: Approx. 5.8g

TX16, TX19

Mass: TX16 Approx. 130g
 TX19 Approx. 160g

Panel cutting

Description	Type	TX16	TX19
Hole		16	19
L distance		500	594
ℓ distance		468.7	562.5

TX18C

Mass: Approx. 155g

TX36C1

Mass: Approx. 325g

● Finger protection covers

- Quick-mounting type cover
 The cover can be quickly mounted on or removed from the TP series socket used with HH series control relay, even if sockets are mounted side-by-side.
- Mountable any time
 The cover can be mounted on or removed from the socket at any time before or after wiring the terminals.

■ Types

Type	Used with
RZ52X1	TP58X1 Socket for HH52P miniature control relay
RZ54X1	TP514X1 Socket for HH54P miniature control relay
FX14X2	TP58X2 socket for HH52P miniature control relay TP514X2 socket for HH54P miniature control relay

■ Dimensions, mm

RZ52X1

Mass: Approx. 2g

RZ54X1

Mass: Approx. 2.5g

FX14X2

Mass: Approx. 2.7g

FX14X2

Industrial Control Relays

Miniature control relays

HH52, 53, 54

■ Dimensions, mm

Socket for rail mounting

● Screw terminal M3.5

TP58X2 (for HH52P)

Mass: 49g

TP511X2 (for HH53P)

Mass: 50g

TP514X2 (for HH54P)

Mass: 62g

● Screw terminal M3

TP58X1 (for HH52P)

Mass: 32g

TP514X1 (for HH54P)

Mass: 49g

● Mounting rails
