

Models 1509R2-2 & 1509R3-2 0.5 to 2.0 GHz 2-WAY POWER DIVIDERS

SMA Female Connectors

This series of Wilkinson Power Dividers has been designed to achieve high isolation and low SWR in a miniature stripline configuration. Etched teflon fiberglass stripline circuits are enclosed within a machined housing that eliminates RF moding and provides high RF shielding. These designs are ideal for lab applications, internal leveling, ECM Systems, communication satellites, RF and microwave test equipment, and wireless applications. Other features include:

- ❑ Flat Frequency Response.
- ❑ Excellent Amplitude and Phase Tracking.
- ❑ Stainless Steel Female SMA Connectors - mate nondestructively with MIL-C-39012 connectors.
