

# HM66204 Series

---

## **131072-word × 8-bit High Density CMOS Static RAM Module**

The HM66204 module was designed for pinout and signal compatibility with the HM628128 128K × 8 Monolithic Device.

This device is now obsolete and no longer in manufacture.

New designs should be based on the HM628128 Monolithic Device.
