Export specifications

## Essentials

Product Collection	Intel® C620 Series Chipsets
Code Name	Products formerly Lewisburg
Status	Launched
Launch Date	07/11/2017
TDP	15 W
Recommended Customer Price	
Use Conditions	Communications Commercial Temp, Server/Enterprise

## Supplemental Information

Embedded Options Available	Yes
Datasheet	<a href="#">View now</a>

## Expansion Options

PCI Express Revision	Gen 3
PCI Express Configurations ‡	1x4,2x2,4x1,1x2+2x1
Max # of PCI Express Lanes	20

## I/O Specifications

# of USB Ports	14
USB Revision	3
USB 3.0	10
USB 2.0	14
Total # of SATA Ports	14
Max # of SATA 6.0 Gb/s Ports	14
Integrated LAN	5
PCIe* Uplink	x1

## Package Specifications

Low Halogen Options Available	<a href="#">See MDDS</a>
-------------------------------	--------------------------

## Advanced Technologies

Intel® Virtualization Technology for Directed I/O (VT-d) ‡	Yes
--	-----

Intel® vPro™ Technology ‡ ?	Yes
Intel® HD Audio Technology ?	Yes
Intel® Rapid Storage Technology enterprise ?	Yes
Integrated Intel® QuickAssist Technology ?	No
Intel® Node Manager ?	Yes
Intel® Standard Manageability ?	Yes
Intel® Rapid Start Technology ?	No
Intel® Platform Trust Technology (Intel® PTT) ?	Yes

### Security & Reliability

Intel® Trusted Execution Technology ‡ ?	Yes
---	-----

All information provided is subject to change at any time, without notice. Intel may make changes to manufacturing life cycle, specifications, and product descriptions at any time, without notice. The information herein is provided "as-is" and Intel does not make any representations or warranties whatsoever regarding accuracy of the information, nor on the product features, availability, functionality, or compatibility of the products listed. Please contact system vendor for more information on specific products or systems.

Intel classifications are for informational purposes only and consist of Export Control Classification Numbers (ECCN) and Harmonized Tariff Schedule (HTS) numbers. Any use made of Intel classifications are without recourse to Intel and shall not be construed as a representation or warranty regarding the proper ECCN or HTS. Your company as an importer and/or exporter is responsible for determining the correct classification of your transaction.

Refer to Datasheet for formal definitions of product properties and features.

"Announced" SKUs are not yet available. Please refer to the Launch Date for market availability.

‡ This feature may not be available on all computing systems. Please check with the system vendor to determine if your system delivers this feature, or reference the system specifications (motherboard, processor, chipset, power supply, HDD, graphics controller, memory, BIOS, drivers, virtual machine monitor-VMM, platform software, and/or operating system) for feature compatibility. Functionality, performance, and other benefits of this feature may vary depending on system configuration.

The Recommended Customer Price ("RCP") is pricing guidance for Intel products. Prices are for direct Intel customers, typically represent 1,000-unit purchase quantities, and are subject to change without notice. Taxes and shipping, etc. not included. Prices may vary for other package types and shipment quantities, and special promotional arrangements may apply. If sold in bulk, price represents individual unit. Listing of these RCP does not constitute a formal pricing offer from Intel. Please work with your appropriate Intel representative to obtain a formal price quotation.

System and Maximum TDP is based on worst case scenarios. Actual TDP may be lower if not all I/Os for chipsets are used.

Low Halogen: Applies only to brominated and chlorinated flame retardants (BFRs/CFRs) and PVC in the final product. Intel components as well as purchased components on the finished assembly meet JS-709 requirements, and the PCB / substrate meet IEC 61249-2-21 requirements. The replacement of halogenated flame retardants and/or PVC may not be better for the environment.

WARNING: Altering clock frequency and/or voltage may: (i) reduce system stability and useful life of the system and processor; (ii) cause the processor and other system components to fail; (iii) cause reductions in system performance; (iv) cause additional heat or other damage; and (v) affect system data integrity. Intel has not tested, and does not warranty, the operation of the processor beyond its specifications. Intel assumes no responsibility that the processor, including if used with altered clock frequencies and/or voltages, will be fit for any particular purpose. For more information, visit <http://www.intel.com/content/www/us/en/gaming/overclocking/overclocking-intel-processors.html>
