

Fully Insulated Quick-Disconnect Terminals

Double Crimp Female, for 22-18 Gauge, 0.25" Wide x 0.032" Thick Tab

\$12.13 per pack of 25
7243K114

Application	Power
Type	Terminal
Terminal Type	Quick Disconnect
Quick Disconnect Type	Push In
Wire Connection Type	Crimp On
Crimp Type	Double
Shape	Straight
Gender	Female
For Wire Gauge	22-18
Tab	
Width	0.250"
Thickness	0.032"
Insulation	Fully Insulated
Insulation Color	Red
Insulation Material	Nylon Plastic
Terminal Material	Tin-Plated Brass
Maximum Temperature	220° F
Maximum Voltage	600V
Specifications Met	UL Listed, CSA Certified
RoHS	Compliant

The connection tab on these terminals is completely covered with insulation, leaving no metal exposed when mated. They slide together and pull apart with ease, so they are convenient for applications that require frequent connections. Use a crimper (not included) to install wire.

Double-crimp terminals have a barrel that can be crimped twice for an extra-tight grip in high-vibration applications.
