

ERmet 2mm Hard Metric Connectors

ERmet® Hard Metric Cable System

These ERmet® cable assemblies are designed to mate reliably with all popular 2mm H.M. shroud systems compatible with the IEC-61076-4-101 connector standard. The ERmet® shroud system is well suited for rugged applications because of the unique retention system which locks the shrouds tightly after they are fully seated. The ERmet® shrouds are available with convenient spring loaded thumb latches which will securely retain the cable connectors against the strain of a cable bundle. The self latching action of the spring loaded design is particularly convenient in hard-to-reach locations.

Figure 7

Example: This sample has a 1 x 5 shielded ERmet cable connector (Table 3) on connector 1. The connector 1 pinout is according to scheme A (Table 4). The cable style is 07, 100 ohm twisted pair (Table 8). The length of the assembly is 48 inches. The connector 2 is a special customer specified connector (Table 4) and the pinout for connector 2 is also a special pinout specified by the customer (Table 4).

Table 8 – Stranded Cable Styles

Cable Style	Construction	Impedance ohms	Conductor/Drain AWG	Conductor/Drain Stranding	Time Delay ns/ft	DC Resistance, ohms/1,000 ft.
01	A	100 Ω parallel pair	26/28	Solid	1.2	40.0
02	A	100 Ω parallel pair	26/30	7 strands	1.2	38.0
03	A	100 Ω parallel pair	28/28	Solid	1.2	64.0
04	A	100 Ω parallel pair	28/28	7 strands	1.2	60.0
05	A	100 Ω parallel pair	30/30	Solid	1.2	102.0
06	A	100 Ω parallel pair	30/30	7 strands	1.2	93.0
07	A	50 Ω coax	26/26	7 strands	1.2	97.0
08	A	50 Ω coax	28/28	7 strands	1.2	60.0
09	A	50 Ω coax	26/26	7 strands	1.2	38.0
10	B	75 Ω coax	30/30	7 strands	1.2	93.0
