

F Y I

Everything you need for trunked, cellular, SCADA, conventional and control station applications

Cushcraft is applications oriented. For nearly 50 years Cushcraft has designed and manufactured antennas for just about every possible use. Our antennas are used in traditional as well as unique applications around the world.

What does this mean to you as a Cushcraft customer? Simply this - you can be sure that every antenna that we sell is designed and built with your needs in mind.

Our complete line of 800/900 MHz products means you can buy from one catalog and one company. Most antennas are in stock at the factory and at major distributors for fastest delivery.

With Cushcraft you can be assured of quality, long life, easy installation, and the support of an industry leader.

Every mobile available with UltraLink Cable

All brass mounts provide 50 Ohm impedance and will not seize due to corrosion.

STANDARD MOBILES

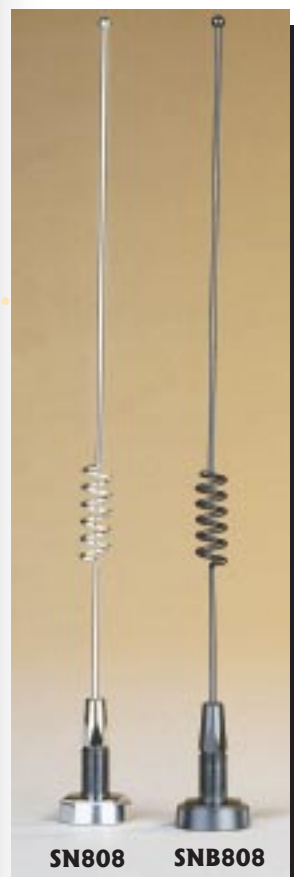

- All-brass mounting hardware
- UltraLink® Cable or RG58A/U
- Traditional styling
- Black Teflon® or polished stainless steel whip

800/900 MHz Mobiles

Standard Mobiles

Choose either our 800 MHz or 900 MHz standard models for conventional, trunked and cellular applications requiring superior performance. These 3 dB mobiles are available with 14.5 feet (4.4 meters) of standard RG58A/U or Cushcraft low loss UltraLink® cable. UltraLink is fast becoming the industry standard for efficiency and ease of installation. Available connectors include PL259, TNC, N and mini-UHF. These mobiles have a VSWR of less than 1.5:1 and feature hardware which will not seize in corrosive atmospheres.

Standard mobiles are available individually and in FastPaks which contain four identical antennas and all parts for easy inventory, convenience, and economy.

STANDARD SELECTOR GUIDE

Model	800/900 Standard
	3 dB Gain
Freq. Range, MHz	806-940
VSWR	<1.5:1
Radiator	17-7PH SS
Hardware	Brass

Economy Mobiles

Our economy mobiles are just right for many applications. These antennas feature a flexible stainless steel radiator and 100% contact with the mount. They are available in 3 dB or 0 dB gain. Our economy mobiles come with 14.5 feet (4.4 meters) of standard RG58A/U or Cushcraft low loss UltraLink® Cable. Available connectors include PL259, TNC, N and mini-UHF. These antennas cover the 806-960 MHz range with VSWR of less than 1.5:1 and feature hardware which will not seize in corrosive atmospheres.

Economy mobiles are available individually and in FastPaks which contain four identical antennas and all parts for easy inventory, convenience and economy.

ECONOMY MOBILES

- All-brass mounting hardware
- UltraLink® Cable or RG58A/U
- 100% contact with mount
- Black Teflon® or polished stainless steel whip
