

- N-CHANNEL, P-CHANNEL AND COMPLEMENTARY OPTIONS
- COMMON SOURCE OR DRAIN (IN SETS OF FOUR DEVICES)
- $B_{VDSS} = 60$ Volt (per device)
- $I_D = 200$ mA (per device)
- SMALL SIZE
- LOW WEIGHT
- FULL SCREENING OPTIONS

MECHANICAL DATA Dimensions in mm (inches)

The MCAF range of MOSFET arrays are available with up to eight P-channel or N-channel devices configured in sets of four with common Drain or common Source connections. Each individual device is rated at 60V, 200mA.

A complementary version is available with 4 common Source/Drain N-channel and 4 common Source/Drain P-channel devices.

Contact the Semelab Sales Office for further details.

N-channel Arrays

MCAF101	4 common Drain + 4 common Drain
MCAF102	4 common Source + 4 common Source
MCAF103	8 common Drain
MCAF104	8 common Source
MCAF105	4 common Source + 4 common Drain

P-channel Arrays

MCAF201	4 common Drain + 4 common Drain
MCAF202	4 common Source + 4 common Source
MCAF203	8 common Drain
MCAF204	8 common Source
MCAF205	4 common Source + 4 common Drain

N-channel / P-channel Arrays

MCAF002	4 common Source N-channel + 4 common Source P-channel
MCAF003	4 common Drain N-channel + 4 common Drain P-channel
MCAF004	4 common Source N channel + 4 common Drain P-channel
MCAF005	4 common Drain N-channel + 4 common Source P-channel
