

# BC5-QF5.5-RP6X2/S250 Capacitive Sensor

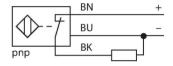

#### Technical data

| Туре                                      | BC5-QF5.5-RP6X2/S250    |
|---|-------------------------|
| ID no.                                    | 2620127                 |
| Rated switching distance (flush)          | 5 mm                    |
| Rated switching distance (non-flush)      | 5 mm                    |
| Secured operating distance                | ≤ (0.72 × Sn)           |
| Hysteresis                                | 120 %                   |
| Temperature drift                         | type 20 %               |
| Repeat accuracy                           | ≤ 2 % of full scale     |
| Ambient temperature                       | -25+70 °C               |
| Electrical data                           |                         |
| Operating voltage                         | 1030 VDC                |
| Residual ripple                           | ≤ 10 % U <sub>ss</sub>  |
| DC rated operational current              | ≤ 200 mA                |
| No-load current                           | ≤ 15 mA                 |
| Residual current                          | ≤ 0.1 mA                |
| Switching frequency                       | 0.1 kHz                 |
| Isolation test voltage                    | ≤ 0.5 kV                |
| Output function                           | 3-wire, NC contact, PNP |
| Short-circuit protection                  | yes / Cyclic            |
| Voltage drop at I <sub>e</sub>            | ≤ 1.8 V                 |
| Wire breakage/Reverse polarity protection | yes / Complete          |
| Tests/approvals                           |                         |
| Approvals                                 | UL                      |

#### **Features**

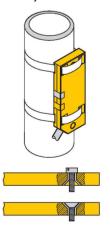

- Rectangular, height 5.5 mm
- Large active face, marked for correct installation
- Plastic, PP
- Fixed settings
- ■DC 3-wire, 10...30 VDC
- ■NC contact, PNP output
- Cable connection

## Wiring diagram

## Functional principle

Capacitive proximity switches are designed for non-contact and wear-free detection of electrically conductive as well as non-conductive metal objects.

## Mounting instructions

#### **Product features**

| Distance D             | 40 mm   |
|------------------------|---------|
| Distance W             | 30 mm   |
| Distance S             | 30 mm   |
| Distance G             | 60 mm   |
| Diameter active area B | Ø 20 mm |

The given minimum distances have been checked against the standard switching distance.

Should the sensitivity of the sensors be changed via potentiometer, the data sheet specifications no longer apply.
