CAT6 Panel-Mount Feed-Through Couplers

- Use these kits to mount CAT6 couplers in virtually any panel thickness.
- Kits include everything you need to build a CAT6 panel-mount coupler: snap-in coupler, mounting frame, and 4/40 screws.
- Solid, die-cast metal mounting frame provides secure mounting and reliable grounding.
- Choose from unshielded and shielded models.
- Backwards compatible with CAT5e.

USB Panel-Mount Adapters

- The right choice when you need to build USB connectors into panels.
- Adapters feature a USB Type A connector on one side and a USB Type B connector on the other.
- Choose from black and silver models.
- 4/40 screws are recommended.

Black Panel-Mount Couplers

- Feature straight-through wiring.
- Contacts have 50-microinch gold plating.
- Housing is 94VO flammability rated.
- For use in CAT3 networks.

Feed-Thru Panel-Mount Adapters

- Designed for panel or wallplate mounting mini DIN and DIN adapters.
- All are female/female and are suitable for jack-to-jack connections.

Water-Resistant D-Style Panel-Mount Solder Connectors

- Solder cup connectors come in male or female versions.
- Choose from DB9, DB15, DB25, and HD15 connector styles.
- Connectors accommodate wire sizes from 30 to 20 AWG.
- The maximum recommended panel thickness is 0.062" (0.15 cm).
- Construction consists of gold-plated brass contacts, nickel-plated steel shells, and a silicone insulating ring.
- The use of 4/40 screws is recommended.
- IP67 rated.
- Use with the Water-Resistant D-Style Backshell Kits (**below**).
